

Anaesthetist-Intensivist – Zurich – Switzerland

Submitted on: 20/07/2019, Reference number: 2019161

End date: 20/10/2019

Location:

Zürich is the largest city of Switzerland and the capital of the Canton of Zürich. The city has around 390,000 inhabitants and is an important economic centre for the country. This also provides an excellent infrastructure with a well-organised international train station and an airport. Zürich is situated in the north of the country, close to the Alps and therefore has a clear sky, which offers great visibility of the mountains from the city.

The modern private clinic is part of the biggest private hospital group in Switzerland, which includes 18 clinics divided over 11 districts. The hospital group employs around 10000 employees, of which 500 are doctors. The headquarters are situated in the city of Zurich, includes 335 beds and holds a wide variety of developed expertise in all aspects of tertiary care. Constant innovation together with the newest technology for diagnostics and therapies ensures that the clinic offers high quality care with special attention for personal preferences.

Job Description:

On behalf of the above-mentioned hospital, we are looking for an anaesthesiologist-intensivist for a fulltime position (0,8 - 1,0 fte). The position is available, because of the expansion of the intensive care and surgical capacity and due to the helicopter operations that are supported by doctors from the clinic.

Next to the specialist education, at least 2 years of work experience within the specialty is desired. This includes experience involving all surgical specialties except cardiac anaesthesia. Furthermore, experience in usage of regional anaesthetic techniques, emergency and rescue drugs is preferred.

You will be responsible for a wide variety of care within the specialty. Willingness to cooperate in the provided further education is assumed. The clinic strives for continued professional education and development of the doctors by their attendance to advanced training.

You may expect collegiate and close cooperation within a motivated team of highly qualified specialists within the large private clinic. Within the anaesthesiology and ICU, the emphasis is laid on visceral surgery, orthopaedics, urology, neuro-, thoracic, cardiac and vascular surgery, as well as gynaecology and obstetrics.

The hospital offers good employment conditions with an attractive holiday arrangement. Good command of the German and English language is required to register and practice in Switzerland. Although C1 command is preferred in your clinical role, a B2-level suffices for registration. MMedical can help you select the right language training centre and will help you with the federal and cantonal professional registration.
